Active:	A00										

4. Paste the pixel which you received from the affiliate partner. In this example, we use a <i frame>. But the code can be different from other affiliates. This should be no problem. Create an IT ticket if you still have any doubts.

untitled pixel	
Affiliate:	untitled
Name:	Monette pixel
Location:	After registration After entry survey
	Use "[campaignid-userid"] without quotes to insert the campaignid and userid. Use "[random]" without quotes to insert a random number. Use "[userid]" without quotes to insert the user id. Use "[user-agent]" without quotes to insert the user agent.

Active:	2
id name	AGO location pixel active actions

5. Replace the tekst "TRANSACTION_ID" or something like that with "[campaignid-userid]" without quotes. This will insert a unique transaction id when the pixel is being fired. It is crucial, because the pixel won't work correctly without this change.

Affiliate:	undbled									
Name:	Monethie pixel									
Location:	After registration After entry survey									
	Use "(campaignid-userid") without quotes to insert the campaignid and userid. Use "(random") without quotes to insert a random number. Use "(userid)" without quotes to insert the user id. Use "(user-agent)" without quotes to insert the user agent.
